Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 117-196 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 117-191, 193-196 is rejected under 35 U.S.C. 102(b) as being anticipated by Sauer USPN 5624428.

10. As to claims 117, 118, 126, 127, 128, 132, 135-138, 145, 146, 158, 163, 167, 168, 169, 173-175, 178-181, 189, 190 Sauer discloses a prefastened absorbent article as claimed having a first and second prefolded nonwoven connector with attached hook fasteners (Figure 1).

As to claim 121, 139, see Figure 1.

As to claim 122, 134, 150, 151, see col. 8, lines 31-67.

As to claim 123, 143, 144, 149, 152-157, 164, 170, see Figures 2 and 3.

As to claims 125, 130, 133, 140, 142, 147, 159 the nonwoven connectors are folded at least twice -see Figure 7.

As to claims 119, 120, 124, 162, 165, 166, 171, 172, 176, 177 Sauer discloses the nonwoven connectors are secured to each other by securement means (see Figure 6).

As to claim 183 and 193, Sauer discloses the nonwoven is breathable col. 8, lines 40-63.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 192 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sauer USPN 5624428. Sauer discloses the present invention substantially as claimed. However, Sauer does not specifically disclose the claimed percentage of the second portion of the prefolded nonwoven connector is non-elastic. However, Sauer discloses the general condition of a nonwoven connector having elastic and nonelastic components. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the nonwoven connectors with the claimed percentage of elastic and nonelastic components as claimed, since where the general conditions of a claim are disclosed in the prior art, it is not inventive to discover the
